

Q1) There are 4861 animals in a farm. 2418 of them are chickens and 1262 are sheep. The rest are pigs. How many pigs are there?

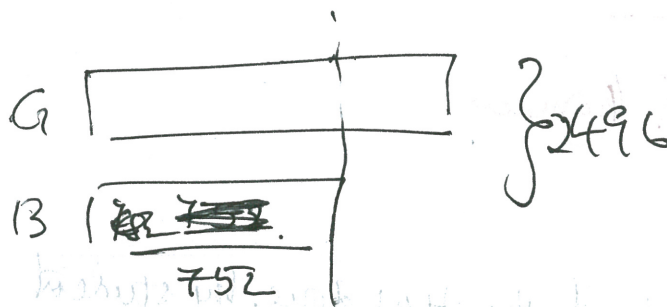

Well Done!

① $2418 + 1262 = 3680$ ✓

② $4861 - 3680 = 1181$ ✓

There are 1181 pigs in the farm. ✓

Q2) 2496 pupils attended a music concert. 752 of them were boys. How many more girls than boys were there?

Good Job!

~~24~~ $752 \times 2 = 1504$ ✓

$2496 - 1504 = 992$ ✓

There were 992 girls more than boys. ✓
