More about the programs:

For J2 H1 Programme:

1. Students will be taught on the essential concepts of the respective chapters and show the types of questions that are applicable to the question to provide students greater understanding of the nature of the question.
2. Students will be taught how these questions will be answered with the adoption of the CSQ answering skills and the application of contextual knowledge.

For J2 H2 programme:

1. Students will be taught on the same approach using the CSQ answering techniques and familiar application approach to ensure that students can improve the capacity to be more competent for the CSQ paper.
2. As for the essay paper, students will be taught on how to develop essay outlines to answer the requirements of the question and learn how to develop the elaboration to satisfy the arguments in the question.

Class Activities will include the following:

i) Review of the Critical Topical Content

This review will provide the explanation of economics terms, process development of main economic arguments, discussion on evaluation and analysis of economic implication and policies. Students will be taught on how to understand, apply and retain the knowledge taught.

ii) Essay Discussion

Students will be taught on the application of knowledge to the requirement of the question, structural development and paragraph development on economic causation, graphical illustration, description of graphs, comparative and analytical evaluation of the questions.

iii) CSQ Discussion

Students will be taught on how to explain trend analysis, develop causation with the extraction of data and figures from the extracts and tables and make analysis and evaluation with the information by linking them to the requirement of the question.

iv) Class Practices for CSQ and Essays

Students are to attempt Essay and CSQ questions during lessons. These trial practices will enable the students to develop spontaneous thinking skills and improve their writing capacity to attempt questions within the stipulated time. Students' answers will be marked and reviewed by the tutor, pointing out their errors in explanation, development of answers and application of knowledge.

How are our online lessons conducted?
